

EnerMech

Safer • Smarter • Solutions

WHO WE ARE

Renowned for rapid growth and innovative thinking, EnerMech has emerged as one of the major players in the global energy and infrastructure markets.

Providing long-term and project-based support across all key stages of an asset life, we deliver fully integrated solutions across a range of mechanical, electrical and instrumentation services.

With more than 3,500 people globally, we have the right capabilities and vision to serve the ever-changing needs of our industry with an extensive portfolio of services including Training, Hydraulics, Equipment Rental, Maintenance, Mechanical, Electrical and Instrumentation, Process and Pipeline, Commissioning, Integrity Management, Pipeline and Subsea, and Cranes and Lifting.

EXPERIENCED

Our 3,500-strong workforce are experts in their field.

AGILE

We innovate and adapt to meet the changing needs of our industry.

LOCAL

We are a global business with expertise and roots in local markets.

Business values

We value the trust customers place in us and act with integrity and honesty in all areas of our business. We work transparently, act responsibly and accept nothing but the highest standards across all our business sectors.

Safety culture

Safety is engrained in our culture and is integral to every aspect of our business. We drive an incident-free workplace, empowering our workforce to identify and report hazards, while also protecting the communities and environment in which we work.

Valued people

Our business is built on the belief that our people are what makes us excellent. In order to continue to thrive on the global stage, we not only invest in our infrastructure, service offerings and technology, but also devote time and energy to the people we are so proud to call our employees.

EXPLORE OUR WORLD...

Maintenance

We provide market-leading and end-to-end maintenance, repair and overhaul of equipment, control systems and components.

Mechanical, Electrical and Instrumentation

We deliver a smooth, seamless and integrated service in all aspects of complex electrical and instrumentation projects and hazardous area installations managed by a single project manager.

Process, Industrial and Valves

Our close partnerships with customers minimize pre-commissioning and shutdown time to reduce cost with end-to-end integrated solutions for on and offshore maintenance, construction and shutdown projects.

Commissioning

We ensure systems are clean, dry, inert and leak-free through a truly integrated range of services.

Integrity Management

Our specialist inspection and integrity team, MInteg, work with our customers to improve asset integrity, enhance inspection and reduce risk through innovative and cost-effective technologies and services.

Pipelines and Subsea

Our industry-leading subsea pipeline testing and commissioning team deliver seamless pipeline projects around the world.

Cranes and Lifting

We deliver the installation, operation, maintenance and inspection of offshore and marine cranes and lifting equipment round the clock.

Training

Reducing risk and raising competence, our training experts provide blended learning programmes at our dedicated training centres or through our e-learning packages.

Hydraulics

We offer a diverse range of over 10,000 stocked hydraulic products and services, including full turnkey engineering packages.

Equipment Rental

We understand your challenges and deliver tailor-made, integrated solutions for the management of equipment including online asset management.

“We work in close collaboration with many companies to turn ideas and innovation into reality. By doing just this, we will transform the energy and infrastructure markets.”

We draw on our four decades of experience in the sector to develop unique models and services to best support our customers and have established robust safety and delivery procedures to protect our staff and the communities in which we work.

Our multi-disciplinary team fosters long-term, collaborative partnerships to deliver a comprehensive service from concept and commissioning through to operation, maintenance and late-life/asset support.

The EnerMech team were some of the most helpful, experienced and proactive personnel I have ever had the fortune to work with offshore. Nothing was a problem, their willingness and eagerness to progress the job was a real credit.

Mechanic,
Major Operator

EXPERIENCED AND RESPECTED

We have more than 40 years of experience servicing the world's most respected companies and believe our track record of delivering successful and multi-disciplinary projects is second to none.

Bringing together the most highly skilled people with cutting-edge equipment and efficient working practices, we can deliver the best results for our customers across the world.

1,500+ 40+ Years

loyal customers work with us around the world.

We have a proven track record of lasting success and we are focused on maximising economic value for our customers.

AGILE AND PROGRESSIVE

In order to deliver the best and most competitive solutions for our customers, we must continually innovate, adapt and evolve. By investing in the most advanced equipment and supporting our employees to develop their skills, we can anticipate and meet the changing demands of the energy and infrastructure industries.

10

sectors supported, including power, petrochemicals and renewables.

10

integrated services offered, including industrial, electrical and equipment rental.

We have operated in fast-paced environments for more than 40 years and react quickly to the changing demands of our projects. Our customer-centric ethos and collaborative approach enables us to tailor smart solutions specific to the unique requirements of each project.

Our project teams operate in sites across the globe, mobilising the most highly skilled people and state-of-the-art equipment necessary to deliver innovative engineering solutions.

EnerMech's assistance was first class. The personnel showed dedication to work in a safe and timely manner, which aligned the shared values between both companies and provided a good foundation for future work on upcoming projects.

Supply Chain Manager,
Major Operator

LOCAL APPROACH, GLOBAL REACH

Our 3,500-strong team works from 40 operational facilities in 23 locations across the globe.

Our facilities are placed in the heart of all major resource, energy and infrastructure hubs to ensure we deliver excellent service where it's needed most.

3,500 40

highly trained individuals working in locations around the world to serve the needs of the fast-moving energy and infrastructure industries.

EnerMech locations established and thriving in 25 countries.

We employ the most highly qualified nationals in all our markets. This arms us with the local knowledge and cultural sensitivities needed to support our global customer base.

Our highly equipped and well-resourced facilities allow us to respond quickly, work flexibly and deliver cost-effective solutions.

It's been a pleasure to have the EnerMech team at our facility. Your knowledge and enthusiasm for teaching is infectious.

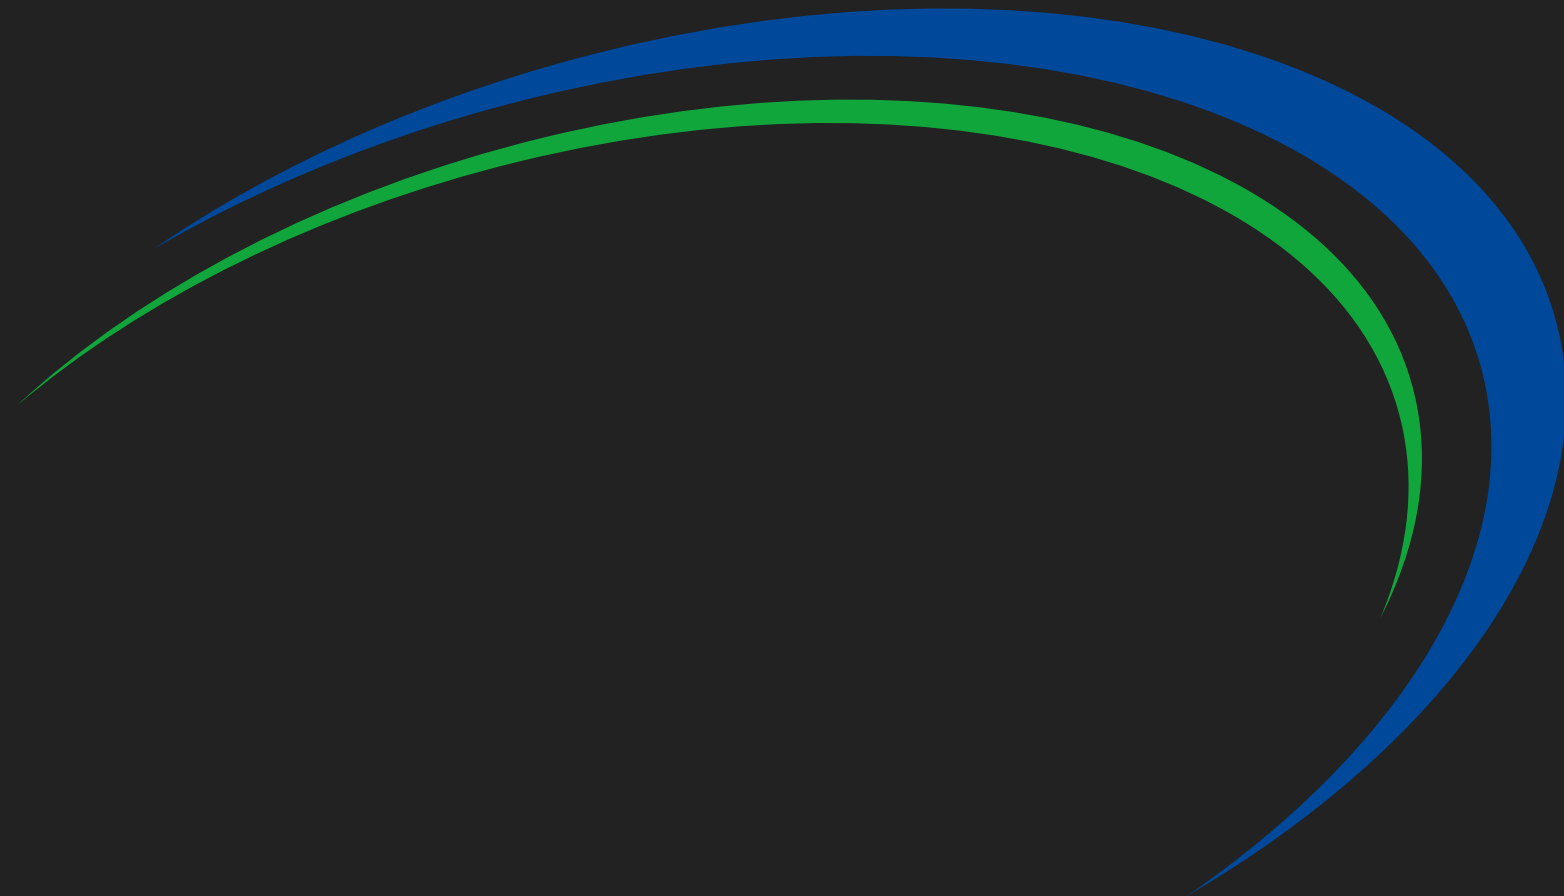

Operations Leader,
OEM, Africa

GLOBAL REACH

EnerMech is one of the world's leading providers of integrated mechanical, electrical and instrumentation services with more than 3,500 people working in 45 locations across 25 countries. We work collaboratively to deliver innovative, flexible and smart solutions that meet the challenges of the global energy and infrastructure industries.
